□□□□□□ (□□□□□□□□□□□□ 22□)

For residents of Tianjin, learning to adapt to a rapidly changing environment and new cultural situations are part of the daily experience. What many might have once taken for granted before relocating to China might not yet exist in the city, especially when it comes to health.

The recently opened Tianjin United Family Hospital is a much-needed addition to the city's healthcare options. We hope you and your family will join this special event, including an open house and hospital tour, to learn more about how to maintain a healthy life in Tianjin.

This event will give you the chance to:

- Engage in a doctor-supported group health discussion drawing on the experience of other expats
- Enjoy two healthcare presentations- a pediatrics talk presented by US trained pediatrician Jessica Pu, MD and a primary care talk presented by US trained internal medicine doctor David Dai, MD
- Small group hospital tours for parents where our doctors will share insight on how to raise a healthy family here
- Free lunch- enjoy a great meal catered by Brasserie Flo of Tianjin

Please note: This is a family-oriented event. We invite parents to bring their children. Supervision for young children will be provided by TJU nursing staff.

This event is limited to 40 participants, if you would like to attend this event, please register your attendance with Ms. Una Zhang at email at [tianjin@european-chamber.com.cn](mailto:tianjin@european-chamber.com.cn) by noontime May 4th, 2012.

Member of European Chamber has the priority in reservation.
